

THE NETWORK BEHIND YOUR SMART HOME

Your AV integrator has partnered with **WhyReboot** to deliver the most reliable, high-performance, and secure network for your smart home.

Here's why you should care:

UNMATCHED RELIABILITY & PERFORMANCE

- Custom networks designed **specifically** for AV-integrated smart homes.
- **Enterprise-grade** hardware ensures maximum speed, continuous operation, and flexible configuration settings today's devices require.
- **Tens of thousands** of access points managed nationwide with advanced AI and machine learning.
- **First and only** company to Wi-Fi certify over 100,000 homes with the Wi-Fi Alliance.

UNRIVALED SUPPORT FOR YOUR INTEGRATOR

- **24/7/365 U.S.-based support** exclusively for your AV integrator—ensuring they have expert assistance whenever needed.
- Direct access to **top-level engineers** (no tiered support or outsourcing), so your integrator can resolve issues quickly.
- **Next business day advanced replacement** for all indoor gear under contract.
- **Limited lifetime warranty** on indoor equipment, even without a support contract.

SECURITY & FUTURE-PROOFING

• Fortinet Security: The Industry's Best Firewall Protection

- + Fortinet is a **leader in the Gartner Magic Quadrant** for multiple years, recognized as a visionary in cybersecurity.
 - + **Enterprise-grade security** at the gateway to protect against cyber threats, malware, and zero-day vulnerabilities.
 - + Advanced **intrusion prevention, content filtering, and AI-driven threat intelligence** keep your network secure.
 - + Secure and **encrypted remote access** for homeowners and integrators, ensuring safe and private connectivity.
- Free **predictive modeling** to determine the best access point placement for your home.
 - AI-powered troubleshooting to quickly identify and resolve network issues.
 - Ongoing **free configuration updates** for the first year (or longer with contract renewal).

THE INDUSTRY LEADER IN RESIDENTIAL NETWORKING

- **Over 15 years** leading the home network space.
- Most RUCKUS specializations of any company in the country
- Exclusive access to **alpha and beta testing** for cutting-edge products.
- Trusted by major developers and top-tier integrators.

Your smart home deserves a **seamless, secure, and high-performance network**. WhyReboot ensures that every connected device—whether lighting, audio, security, or automation—works flawlessly, all the time. Your AV integrator relies on WhyReboot to provide expert network support, so you can enjoy a worry-free smart home experience.
